## EDUCATION

### Btech. Mechatronics

School of Electronics and School of Mechanical Engineering, Lovely Professional University, Phagwara, Punjab

06/2017 - 06/2021

### 12th

Sainik School Sujanpur, distt. Hamirpur (HP)

2015 - 2016

### 10th

Sainik School Sujanpur, distt. Hamirpur (HP)

2013 - 2014

## WORK EXPERIENCE

### Full-Stack Development Engineer (MERN) Vouch

10/2023 - Present

Digital Escrow & Escrow APIs

Achievements/Tasks

- NodeJs, Express, ReactJs, Oracle SQL, MySQL, Firebase Google & JWT Oauth, Webhooks, Socket.io, AWS Lambda/SNS/API Gateway, Firebase, CICD, PHP, WordPress ( Woocommerce ) Plugin Development, Chat System Design and Development, Dashboard

### Full-Stack Development Engineer (MERN) Edutap

10/2022 - 10/2023

Bangalore, India

Finverse: Education-Tech Product-Based Company

Achievements/Tasks

- Using NodeJs, Express, ReactJs, Axios, Bcrypt, AWS EC2/RDS/S3/Lambda, PostgreSQL, Google & JWT auth, Text-Local SMS and Whatsapp Cloud API, RazorPay and CashFree Payments. PDF Generators, Webhooks, SHA256 encryptions, CICD Pipelining. SendGrid, Gmail API, REDIS, Multi-Threading.

### NodeJS Developer Intern Myweblink Technologies

06/2021 - 09/2022

Achievements/Tasks

- Worked on E-Commerce and E-Learning based projects. MySQL, CICD with AWS, JWT & Bcrypt Password encryption, SendGrid APIs, MongoDB.

## TECH STACK

Advanced JavaScript

NodeJS

Express

MySQL

PHP

WordPress Plugin Development

MongoDB

REDIS

ReactJS

Material UI

Redux

Redux-Toolkit

HTML

CSS

jQuery

C/C++

Java

Python

REST-APIs

Algorithms

Multi-Threading

AWS EC2 Servers

AWS RDS Databases

AWS Lambda Serverless

AWS S3 Storages

Docker

Jenkins

Git/Github

CICD Pipelining

Whatsapp Cloud API

SendGrid

Google Mail API

Netlify

Razorpay

Stripe

Cashfree Payments

Sockets/Socket.io

Kafka

## PROJECTS

Portfolio [ <https://oshinpojta.netlify.app> ] (08/2023 - Present)

- Check out the portfolio site hosted on Netlify for various links to download resume, social media, git repository, and my ongoing projects. Purpose of showcasing skills to fellow developers and recruiters.

Stock Bugger (Stock Ticker) (09/2023 - Present)

- Stock-Ticker Web App built using React, Node and Socket.io. Creation of 10 stocks and their orders in the backend and use of sockets to emit orders with Pub-Sub model. Using Google Oauth and various React hooks and Context API

The Daily Planet [ <https://the-daily-planet.netlify.app> ] (ReactJS) (08/2023 - Present)

- The Daily Planet ( Live News App ) using ReactJs and hosted on <https://the-daily-planet.netlify.app>. Bootstrap, JSX, and react-hooks like useState, useEffect, useRef and React-router, features like pagination, a top-loading bar, and infinite scroll.

Group Chat App (09/2022 - 09/2022)

- Group Chat App (<https://github.com/oshinpojta/Group-Chat-App>) is built on NodeJS and WebSockets/Socket.io for realtime chat and was hosted on AWS EC2. Login and Signup along with forgot password feature. Uploading images to storing on AWS S3 Storage.
