EDUCATION

Design Boat UX/UI School

Bengaluru - India

Professional Bootcamp in UX/UI (Jan 2023-May 2023)

- I successfully completed a comprehensive 16-week bootcamp in UX/UI Design at Design boat in Bengaluru.
- This intensive, full-time program that provided hands-on training in user-centered design and visual design and completed several design projects, including designing an iOS, Android & Web.

Academic Work: Design Thinking, User Experience Design, User Research Methods, Interactive Design, Mobile, Web Design, Wireframing & Prototyping

SRM University (IST)

Chennai - India

Master of Science (2021 - 2023)

Major: Visual Communication

Bishop Appasamy College

Coimbatore - India

Bachelor of Science (2017 - 2020)

Major: Visual Communication

EXPERIENCE

Vouch Pay Technologies (Fin-Tech)

Bengaluru - India

UX/UI Designer (JUL/2023 - Present)

- I have hands-on experience in User Experience (UX) and User Interface (UI) gained from collaborating with skilled designers on live projects and new product launches for web-app visuals.
- Crafted brand elements like a document outlining changes for revamping web-app design, designed dashboard pages, focused on user-centered design, and created visual designs for launching new products.
- Created visually appealing materials, including design components, variables, and prototypes. Customized for different groups of people and made to work well on various devices.
- Managed design for dashboards, mobile, and web apps. Created developer specs for smooth file handover.

PROJECTS

Designed a Fashion Mentoring App

Jan2023 - May2023

Name of the App: **FashUP** (Bootcamp Project)

- Developed and implemented user-friendly user interfaces for the FashUP app, emphasizing the improvement of personalized event discovery and simplified Mentor booking procedures, including the option for connecting with expertise.
- Conducted user research and performed usability testing, which provided valuable insights that influenced my design decisions
- Additionally, I led a team of 6 students with diverse backgrounds during a bootcamp, guiding them through the entire research and app design process. Together With my team, I smoothly combined design ideas to make sure our users had a consistent and enjoyable experience.
- App Features : Trending Fashion Feeds | Events & Meetups | Mentorship | Short Videos | Job Opportunities | Payment Page.
